

I Have a Dream

Lyrics by Brian Potter

Music by Wayne Green

I have a dream of how the world should be
And I'll fight from today to make it better.
For I know that I believe in you,
And my dream is your dream, too.

I have a dream that peace begins with me,
I will stand up today -- it's now or never!
Time will show, in all the things I do
That my dream is your dream, too.
From the hillside to the ocean
Youthful voices singing everywhere

I have a dream, come give your hand to me.
Till the clouds roll away, let's fight together!
You and I will see the sun break through
If my dream is your dream, too.
For I know that I believe in you,
and my dream is your dream, too.
