Culture of Peace Distinguished Speaker event will be the screening of The Armor of Light, a film by Abigail Disney, where the topic of gun violence in America is examined by Reverend Rob Schenck, an Evangelical Minister and Lucy McBath, mother of Jordan Davis, an unarmed teenager who was murdered in Florida and whose story casts light on the “Stand Your Ground” laws. The film brings people together across deep divides to have a discussion about beliefs and the value of human life. Their ability to transcend disparate beliefs illuminates our individual capacity to hold productive conversations and make the conscious decision to find common ground. Ms. Disney, the Director will be our speaker after the film showing.
