

SGI-USA ORGANIZATION MEMO

DATE: AUGUST 13, 2019

MEMO: 2019-STATS-004

THE YEAR OF
2009 Soka Victory
TOWARD OUR 90TH ANNIVERSARY

DISTRIBUTE TO: District – Territory Leaders, Territory and Zone Offices
FROM: SGI-USA Statistics Department
SUBJECT: 2019 September Statistics Appreciation Month

To our noble and hardworking statistics administrators, thank you very much for all your behind the scenes efforts. This year, for the first time ever, SGI-USA opened its online statistics system to district leaders to report monthly discussion meeting attendance by name; make critical membership changes and run key statistics and subscriptions reports.

This year marks the 15-year anniversary of our online statistics system, which was created based on direct

guidance from SGI President Ikeda as a means to improve our member care efforts. The fact that district leaders in particular now have access to our online statistics system, must make SGI President Ikeda very happy.

To commemorate our 15-year anniversary, SGI-USA will hold statistics appreciation meetings in September, for district through zone statistics administrators.

SEPTEMBER 23-29 APPRECIATION MEETINGS

During the last week of September, please hold appreciation meetings at the region or zone level for all district through zone statistics administrators.

SUGGESTED AGENDA

Gongyo

Message

Experience or report from a district statistics administrator

Statistics workshop

- Clarification of data entry user roles
- Review key tutorials (report attendance/membership changes)

- Q&A

Gift Presentation (15-Year Commemorative Coin)

Encouragement by a line leader at the same level or above, in which the meeting is being held – i.e. if meeting is at the zone level, zone through national leader

15-YEAR COMMEMORATIVE COIN

To conclude, SGI President Ikeda shares the following:

“The Statistics Department is the pillar of the spirit of mentor and disciple that cherishes each person. The Statistics Department is the vital key for the unity of “Many in body but one in mind” and the attainment of enlightenment in this lifetime for all our comrades. The Statistics Department is the strength for the eternal advancement and expansion of kosen-rufu.”

(Respect and Care for Every Individual, pp. 7-8)
