

DISTRIBUTE TO: District through Territory Leaders, Future Division and Parents Group Leaders, Zone and Territory Offices
FROM: National Future Division and Parents Group Leaders
SUBJECT: 2021 June Future Division Month

Thank you sincerely for your tremendous support! We are taking action in many ways to lay the foundation toward 2030 and beyond, including:

- ◇ Establishment of junior high and high school cores;
- ◇ The SUA promotional webinar; and most recently,
- ◇ Initiative to visit 10,000 Future Division members in 2021.

With this in mind, we will celebrate June as “Future Division Month” throughout SGI-USA again this year. Looking forward to celebrating another historic Future Division month in June with all of you!

FUTURE DIVISION EXPERIENCES AT JUNE DISCUSSION MEETINGS

Each June, the SGI-USA celebrates Future Division Month to reconfirm members’ leading role in advancing kosen-rufu and world peace.

To empower the Future Division this year, we ask that Future Division members be given the opportunity to share an experience at the June discussion meeting. We suggest that leaders call and extend a personal invitation to Future Division and their parents in the district before the June discussion meeting as a wonderful cause for them to participate and even bring a friend.

FUTURE DIVISION STATISTICS INITIATIVES

As we continue to solidify an accurate database of our Future Division membership, we would like everyone’s support for a few key statistics initiatives:

1. Ensure all Future Division members are accounted for on your membership lists
2. Confirm that all Future Division members are associated to the correct division:
 - Pre-Elementary School (approx. 0-4 years old)
 - Elementary School (approx. 5-11 years old)
 - Junior High/High School (approx. 12-17 years old)
3. Make a note on your membership lists that denotes the year of high school graduation for all high school students

FUTURE DIVISION GRADUATIONS

SGI-USA has created certificates that celebrate Future Division members’ completion of elementary school, junior high and high school. We strongly suggest the June discussion meeting as the best place to announce and celebrate these graduations.

In addition, graduates will receive a special 25th anniversary copy of Ikeda Sensei’s lecture presented at Teachers College, Columbia University titled, “Thoughts on Education for Global Citizenship.”

Please submit the list of high school graduates from your organization to your respective region-zone youth leaders to ensure their smooth transition into Youth Division and Student Division.

The graduation certificate and special copy of Ikeda Sensei’s lecture are forthcoming.

JUNIOR HIGH AND HIGH SCHOOL NATIONWIDE MEETING

There will be a nationwide Zoom meeting for all Junior High and High School members and their friends on Sunday, June 27 from 1pm PDT. Full details about this exciting activity are forthcoming.
